Throughout the Civil War, newspaper headlines and stories repeatedly asked some variation of the question posed by the New York Times in 1862, "What shall we do with the negro?" The future status of African Americans was a pressing issue for those in both the North and in the South. Consulting a broad range of contemporary newspapers, magazines, books, army records, government documents, publications of citizens' organizations, letters, diaries, and other sources, Paul D. Escott examines the attitudes and actions of Northerners and Southerners regarding the future of African Americans after the end of slavery. "What Shall We Do with the Negro?" demonstrates how historians together with our larger national popular culture have wrenched the history of this period from its context in order to portray key figures as heroes or exemplars of national virtue. Escott gives especial critical attention to Abraham Lincoln. Since the civil rights movement, many popular books have treated Lincoln as an

icon, a mythical leader with thoroughly modern views on all aspects of race. But, focusing on Lincoln's policies rather than attempting to divine Lincoln's intentions from his often ambiguous or cryptic statements, Escott reveals a president who placed a higher priority on reunion than on emancipation, who showed an enduring respect for states' rights, who assumed that the social status of African Americans would change very slowly in freedom, and who offered major incentives to white Southerners at the expense of the interests of blacks. Escott's approach reveals the depth of slavery's influence on society and the pervasiveness of assumptions of white supremacy. "What Shall We Do with the Negro?" serves as a corrective in offering a more realistic, more nuanced, and less celebratory approach to understanding this crucial period in American history. A century after the Armistice and the associated peace agreements that formally ended the Great War, many issues pertaining to the UK and its empire are yet to be satisfactorily resolved. Accordingly, this volume presents a multi-disciplinary approach to better understanding the post-Armistice Empire across a broad spectrum of disciplines, geographies and chronologies. Through the lens of diplomatic, social, cultural, historical and economic analysis, the chapters engage with the histories of Lagos and Tonga, Cyprus and China, as well as more obvious geographies of empire such as Ireland, India and Australia. Though globally diverse, and encompassing much of the post-Armistice century, the studies are nevertheless united by three common themes: the interrogation of that transitional 'moment' after the Armistice that lingered well beyond the final Treaty of Lausanne in 1924; the utilisation of new research methods and avenues of enquiry to compliment extant debates concerning the legacies of colonialism and nationalism; and the common leitmotif of the British Empire in all its political and cultural complexity. The centenary of the Armistice offers a timely occasion on which to present these studies. Créée informellement en 1989, la conférence des pays éditeurs de documents diplomatiques a réuni à Paris en octobre 2005, à l'occasion de sa 8e session, une trentaine de délégations qui ont travaillé tant sur des questions de méthodologie que sur un thème historique, celui de la naissance et de l'évolution de l'Organisation des Nations unies. L'ensemble de leurs contributions est réuni dans ce volume, dont la direction des Archives du ministère français des Affaires étrangères, organisatrice de la réunion, a choisi de confier la publication aux éditions Peter Lang, qui publie déjà les Documents diplomatiques français. Le lecteur y trouvera les secrets de fabrication de cette collection et de ses homologues les plus anciennes, et en découvrira d'autres, plus récentes, voire en cours de création. Established unofficially in 1989, the International Conference of Editors of Diplomatic Documents brought together in Paris in October 2005, on the occasion of its 8th meeting, more than thirty delegations. The conference concentrated on the methodology of editing and publishing and chose to focus on the historical theme of the birth and development of the United Nations Organization. Reports and papers presented by the participants are gathered in the present proceedings, the publishing of which was entrusted by the Archives of the ministère des Affaires étrangères to Peter Lang Publishing Group, which is currently responsible for publishing the Documents diplomatiques français. The reader will find in this publication the trade secrets of the French series and of the earliest analogous series of diplomatic documents, as well as discover other more recent collections or even some in the process of being created. During the '50s and '60s, hundreds of recording artists--from the well-known to the obscure--jumped on the country music bandwagon. Drawing on his years of research, personal interviews, and rare recordings and documents, Escott brings to life a score of musical innovators, telling their stories and reinstating their place in American musical history. 45 photos. Six gentlemen, one goal: the destruction of Hitler's war machine In the spring of 1939, a top-secret organization was founded in London: its purpose was to plot the destruction of Hitler's war machine through spectacular acts of sabotage. The guerrilla campaign that followed was every bit as extraordinary as the six men who directed it. One of them, Cecil Clarke, was a maverick engineer who had spent the 1930s inventing futuristic caravans. Now, his talents were put to more devious use: he built the dirty bomb used to assassinate Hitler's favorite, Reinhard Heydrich. Another, William Fairbairn, was a portly pensioner with an unusual passion: he was the world's leading expert in silent killing, hired to train the guerrillas being parachuted behind enemy lines. Led by dapper Scotsman Colin

Gubbins, these men—along with three others—formed a secret inner circle that, aided by a group of formidable ladies, single-handedly changed the course Second World War: a cohort hand-picked by Winston Churchill, whom he called his Ministry of Ungentlemanly Warfare. Giles Milton's Churchill's Ministry of Ungentlemanly Warfare is a gripping and vivid narrative of adventure and derring-do that is also, perhaps, the last great untold story of the Second World War. Includes receipts, letters, lease documents, invoices, telegram and cards concerning the lands leased to Roy Walden for the property, Escott. Fans called this singer/songwriter "The Voice." Designed to encourage critical thinking about history, the Major Problems series introduces students to both primary sources and analytical essays on important topics in US history. This text, designed to be the primary anthology for the introductory survey course, covers the span of the Civil War. The Third Edition, with new co-author Amy Taylor, includes a new chapter on Lincoln and Davis as military leaders, reorganized home front chapters, and many new documents and essays reflecting the latest scholarship. Routledge is an imprint of Taylor & Francis, an informa company. Escott Reid: Diplomat and Scholar offers a fresh perspective on the life and career of one of the most important public intellectuals and diplomats in twentieth-century Canada. The authors challenge critics who dismiss Reid as an impractical idealist, demonstrating that his approach to policy-making was sophisticated and his progressive idealism tempered by an astute grasp of the competing interests of a range of national and bureaucratic powers. Reid's reflections on Canada's place in the world remain as relevant and provocative as when he wrote them. "[The] collection of essays and documents in these volumes provides a comprehensive view of the culture of the American South as well as its political, social, and economic history. The compelling documents are grouped with important secondary sources, accompanied by chapter introductions, selection headnotes, and suggested readings."--Provided by publisher.
