Chronologically arranged with the original Samuel Johnson introduction, this collection offers rare and entertaining tracts and pamphlets in manuscript and printed forms. Interspersed are historical, political and critical notes from the library of Edward Harley, second earl of Oxford. This collection was edited by Harley's secretary, William Oldys, and Samuel Johnson in the original edition, 1744-1746. Describes how Matisse turned paper cut-outs into works of art. Provides sheets of paper and instructions so that children can make similar cut-outs. From entertainment to citizenship reveals how the young use shows like X-factor to comment on how power ought to be used, and how they respond to those pop stars – like Bono and Bob Geldof – who claim to represent them. It explores how young people connect the pleasures of popular culture to the world at large. For them, popular culture is not simply a matter of escapism and entertainment, but of engagement too. The place of popular culture in politics, and its contribution to democratic life, has too often been misrepresented or misunderstood. This book provides the evidence and analysis that will help correct this misperception. It documents the voices of young people as they talk about popular culture (what they love as well as what they dislike), and as they reveal their thoughts about the world they inhabit. It will be of interest to those who study media and culture, and those who study politics. Can politics be combined with entertainment? Can political involvement and participation be fun? Politics and popular culture are converging all the time, whether it's in Arnold Schwarzenegger's election as governor of California or in political television dramas and movies like *The West Wing* and *Dave*. This book encourages readers to think about how links between entertainment and politics have the potential to rejuvenate citizenship, endorse civic values, and sustain civic commitment. Instead of discarding the popular as irrelevant or dangerous to the democratic process, Liesbet van Zoonen shows us the possibilities for increasing political knowledge and participation through the arenas of politics and popular music, political "soaps," political television dramas, and politicians as celebrities. A first-rate starting point for debate, *Entertaining the Citizen* will stimulate and entertain students and general readers alike. Public speaking can be terrifying. For David Nihill, the idea of standing in front of an audience was scarier than cliff jumping

into a thorny pit of spiders and mothers-in-law. Without a parachute or advanced weaponry. Something had to change. In what doesn't sound like the best plan ever, David decided to overcome his fears by pretending to be an accomplished comedian called "Irish Dave" for one full year, crashing as many comedy clubs, festivals, and shows as possible. One part of the plan was at least logical: he was already Irish and already called Dave. In one year, David went from being deathly afraid of public speaking to hosting a business conference, regularly performing stand-up comedy and winning storytelling competitions in front of packed houses. And he did it by learning from some of the best public speakers in the world: stand-up comedians. *Do You Talk Funny?: 7 Comedy Habits to Become a Better (and Funnier) Public Speaker* shows how the key principles of stand-up comedy can be applied to your speaking engagements and presentations to make you funnier, more interesting, and better looking. (Or at least two of the three.) Whether you are preparing for a business presentation, giving a wedding toast, defending your thesis, raising money from investors, or simply want to take on something you're afraid of, this book will take you from sweaty to stage-ready. You'll learn how to: - Craft a story and content that your audience will want to listen to - Find the funniest parts of your material and how to get to them faster - Deal with stage fright - Master the two most important parts of your performance: timing and delivery Ten percent of the author's proceeds from this book will go to Arash Bayatmakou via Help Hope Live until he is fully back on his feet and thereafter to one of the many facing the same challenges after suffering a severe spinal cord injury. George Jean Nathan (1882-1958) was formative influence on American letters in the first half of this century, and is generally considered the leading drama critic of his era. With H. L. Mencken, Nathan edited *The Smart Set* and founded and edited *The American Mercury*, journals that shaped opinion in the 1920s and 1930s. This series of reprints, individually introduced by the distinguished critic and novelist Charles Angoff, collects Nathan's penetrating, witty, and sometimes cynical drama criticism.
