**The Education of Little Tree** Nov 17 2019 The Education of Little Tree tells of a boy orphaned very young, who is adopted by his Cherokee grandmother and half-Cherokee grandfather in the Appalachian mountains of Tennessee during the Great Depression. "Little Tree" as his grandparents call him is shown how to hunt and survive in the mountains, to respect nature in the Cherokee Way, taking only what is needed, leaving the rest for nature to run its course. Little Tree also learns the often callous ways of white businessmen and tax collectors, and how Granpa, in hilarious vignettes, scares them away from his illegal attempts to enter the cash economy. Granma teaches Little Tree the joys of reading and education. But when Little Tree is taken away by whites for schooling, we learn of the cruelty meted out to Indian children in an attempt to assimilate them and of Little Tree's perception of the Anglo world and how it differs from the Cherokee Way. A classic of its era, and an enduring book for all ages, The Education of Little Tree has now been redesigned for this twenty-fifth anniversary edition.

**Behold a Pale Horse** Aug 07 2021 Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The only man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heroes, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.

**Rancher, Farmer, Fisherman: Conservation Heroes of the American Heartland** Jan 12 2022 Now a feature-length documentary on the Discovery channel narrated by Tom Brokaw. "Lush, gorgeously written...A profoundly hopeful book." —Tina Rosenberg, winner of the Pulitzer Prize and the National Book Award A Kirkus Best Book of 2016 Many of the men and women doing today's most consequential environmental work—restoring America's grasslands, wildlife, soil, rivers, wetlands, and oceans—would not call themselves environmentalists; they would be too uneasy with the connotations of that word. What drives them is their deep love of the land: the iconic terrain where explorers and cowboys, pioneers and riverboat captains forged the American identity. They feel a moral responsibility to preserve this heritage and natural wealth, to ensure that their families and communities will continue to thrive. Unfolding as a journey down the Mississippi River, Rancher, Farmer, Fisherman tells the stories of five representatives of this stewardship movement: a Montana rancher, a Kansas farmer, a Mississippi riverman, a Louisiana shrimper, and a Gulf fisherman. In exploring their work and family histories and the essential geographies they protect, Rancher, Farmer, Fisherman challenges pervasive and powerful myths about American and environmental values.

*The Last Cowboys: A Pioneer Family in the New West* Jul 06 2021 "A can't-put-it-down modern Western." —Kirk Siegler, NPR Longlisted for the PEN/ESPN Award for Literary Sports Writing The Last Cowboys is Pulitzer Prize-winning reporter John Branch's epic tale of one American family struggling to hold on to the fading vestiges of the Old West. For generations, the Wrights of southern Utah have raised cattle and world-champion saddle-bronc riders—many call them the most successful rodeo family in history. Now they find themselves fighting to save their land and livelihood as the West is transformed by urbanization, battered by drought, and rearranged by public-land disputes. Could rodeo, of all things, be the answer? Written with great lyricism and filled with vivid scenes of heartache and broken bones, The Last Cowboys is a powerful testament to the grit and integrity that fuel the American Dream.

*Touching the Wild* Sep 27 2020 In *Illumination in the Flatwoods*, Joe Hutto unveiled the secret lives of wild turkeys to great critical acclaim, which resulted in the Emmy Award-winning PSB documentary *My Life as a Turkey*. Now Hutto has done it again. *Touching the Wild* is the enchanting story about one man who has lived with a herd of mule deer in the Rockies for almost seven years. Due to the intense curiosity of one groundbreaking deer, and the resulting introduction to an entire herd, Joe Hutto has been allowed unprecedented access and insight into the minds and behavior of this special animal. Spending every day embedded among the herd, he develops an uncanny connection with the deer, witnessing individual and group dynamics never before observed and recorded, unveiling just how much we have in common with these delicate beings. Each season brings joy as fawns are born, and heartache as hunters, predators, development, and a pollution all take their toll. The mule deer of the West are in trouble, and Hutto is their most fervent advocate. *Touching the Wild* is proof that we have so much to learn from wild animals about their world, ourselves, and the fragile planet we share. Full color photos throughout.

Peering in through the window, her attention - and libido - are both snagged by a man delivering some old-fashioned discipline to a young blonde. After he runs Sydney off, both are surprised to discover she is the new chef he's hired for his ranch. Caden wanted to turn away the cheeky woman he'd caught spying on his club without remorse, but desperation for a chef forced his hand. Sydney proves to be a definite asset to his employees, and a royal pain in his butt. Somehow, her penchant for getting lost and landing in trouble, along with her determination to return to the club as a guest, soon slide past his resistance. It takes a threat to Sydney and unearthing the truth about what made her flee her home in Missouri to force them both to admit their feelings and get her to stay as more than his chef. *Submitting to the Sheriff* After overhearing two crooked Chicago cops plotting against her, Avery Pierce goes on the run, not knowing who she can trust. When her low finances force her to take a job as a sex phone operator, she struggles, so when a caller senses her desperation and inexperience and offers assistance, she's tempted to agree. As soon as Sheriff Grayson Monroe meets the new waitress at his favorite diner, something about her strikes a familiar chord. When he sees her enter The Barn, his lifestyle club, the desire to get to the bottom of her evasive eyes and answers to his probing questions takes hold. He's determined to find out who she really is and what is troubling her. After an icy mishap, Master Grayson has finally run out of patience. One way or another, Avery will tell him the truth. But is it too late? Has danger already found her? Can Grayson come to her rescue or will she lose everything she has just gained?

*Interaction of the Rocky Mountain Foreland and the Cordilleran Thrust Belt* Apr 03 2021 This volume emphasizes the interaction of the Cordilleran thrust belt and Rocky Mountain foreland in studies of regional structural geology, geophysics, and sedimentology from west-central Montana to Arizona. The volume outlines how the nature of the Rocky mountain foreland and its deformation affect the geometry of the Cordilleran thrust belt. Many of the structural and geophysical studies reported in this volume also address the question of which structures - forland or thrust belt - developed first in a specific region and how early formed structures influenced later ones. Several chapters address the nature and style of foreland development.

*Grizzly Heart* May 24 2020 An absorbing first-hand account of living with bears, from the acclaimed author of *The Spirit Bear*. To many people, grizzlies are symbols of power and ferocity -- creatures to be feared and, too often, killed. But Charlie Russell, who has had a forty-year relationship with bears, holds the controversial belief that it is possible to live with and truly understand bears in the wild. And for five years now, Russell and his partner, artist and photographer Maureen Enns, have spent summers on the Kamchatka peninsula, located on the northeast coast of Russia, and home of the densest population of brown bears in the world. *Grizzly Heart* tells the remarkable story of how Russell and Enns have defied the preconceptions of wildlife officials and the general public by living unthreatened -- and respected -- among the grizzlies of Kamchatka. In an honest and immediate style, Russell tells of the trials and successes of their years in the field, from convincing Russian officials to allow them to study, to adopting three bear cubs left orphaned when their mother was killed by a hunter (and teaching these cubs how to survive in the wild), to raising environmental awareness through art. Through a combination of careful study and personal dedication, Russell and Enns are persuading people to reconsider the age-old image of the grizzly bear as a ferocious man-eater and perpetual threat. Through their actions, they demonstrate that it is possible to forge a mutually respectful relationship with these majestic giants, and provide compelling reasons for altering our culture. "We have been able to live beautifully with these animals, with no serious threat, because of what we've learned. Hopefully, sharing what we learn will help people -- and be a big help to our bears, too."
