Discover more Peter and Jane stories for new readers: *Key Words With Peter And Jane: Level 4c* This entertaining story written in simplified Chinese, pinyin and English is designed for learners to practice the 300 most common Chinese words, the same as for the HSK level 2. It is useful to practice and memorize Chinese characters with the support of pinyin and translation. It serves two objectives at the same time: developing fluency in Mandarin Chinese with ease and fun, and get ready for the HSK proficiency tests. A family is distressed when Daddy gets the chicken pox, but when he recovers it is a joyous occasion. Completely revised and updated with brand-new word lists that reflect vocabulary requirements for success on the latest SAT I college-entrance tests, this card pack contains 300 words on 50 vocabulary recognition cards and a handy six-card index. The card case is designed with viewing windows. Both cards and viewing case have been enlarged for this new edition. Users can slide cards past the window, first to see the word and its part of speech; second, to see the word's definition; third, to see it used in an example sentence; and fourth, to see and learn other words with related meanings. *Wordmaster Level II* presents 300 advanced words to be mastered after students have become comfortable using the basic Level I vocabulary, which is available as a separate package, and also presents 300 words with definitions. Students who master all 600 words in both levels are virtually guaranteed to excel in the verbal testing sections of the SAT I and all college-entrance

exams. Key Words With Peter And Jane: Level 1c Key Words With Peter And Jane: Level 2a A little boy and his sister go to the zoo and take pictures of the animals and of the little boy. HSK 2 Storybook Vol. 1 consists of 10 short stories written in Simplified Chinese and Pinyin with free audio files. The purpose of this book is to provide readers with reading materials to practice their reading skills as well as an introduction to more extended sentence structure and longer articles. HSK 2 Storybook Vol. 1 has all the vocabularies in HSK 2. If you finish the book, you would have practised your reading skill on all the vocabularies in HSK 2. This book focuses on HSK 2 vocabularies. If you need to practise HSK 1 vocabularies, please consider reading HSK 1 Storybook. I have tried to restrict the vocabularies used in this book to HSK 2 as far as possible. Where it is not possible, I have introduced limited new words in the story. If you have learned all the HSK 2

Vocabulary and completed the Standard Course Book for HSK 2 by Jiang Liping, you would be able to read about 85% of this book without learning new words. Text to speech for this book has been enabled. You may also download the free audio files with the link and password provided on the last page. I consider the HSK 2 Vocabulary together with the new words introduced in Standard Course Book as Extended HSK 2 Vocabulary and I will refer to it as such from now on. The structure of this book is as follows: -Statistics - this will provide the reader with an analysis of the words used in the story and the level of difficulty. It will set out new words along with Pinyin and explanation. The new words set out here are not cumulative. New words are set out here as long as the words used are not in the Extended HSK 2 Vocabulary. -Story - this section is the story in Simplified Chinese without Pinyin and the English translation. To test level of reading skills, you should attempt to read this section first before going to the next. -Pinyin and Translation - this will be the section for Pinyin and English translation. -Appendix - for the benefit of those who need assistance on the HSK 2 and HSK 2 Standard Course vocabularies, I have included them in this section for your reference. The stories in this book are individual stories. A reader may choose to read this book in any particular order. To help you decide which story to read first, you may take a look at the statistics before you begin. The difficulty level for each story varies. Preparing for the HSK Chinese proficiency tests? This essential reference book presents each list of the HSK words from level 1 to 6, plus the complete list of all the 5000 words recommended to pass the HSK tests. Each word is presented sorted in alphabetic order

(based on pinyin) with: - its index within the given list - its writing in simplified Chinese (the traditional writing is presented in the index at the end of the book) - its writing in pinyin (international standard for the phonetic transcription of Chinese) - its translation in English (main meaning)

Content: HSK level 1 (150 words) HSK level 2 (150 words) HSK level 3 (300 words) HSK level 4 (600 words) HSK level 5 (1,300 words) HSK level 6 (2,500 words) Index (5,000 words)

Contrary to earlier approaches, this study suggests that Modern Greek (MG) is a language that exhibits reduplication, in the form of Total Reduplication (TR). The analysis addresses the morphosyntactic, phonological, semantic and pragmatic aspects of the types of TR in MG, and the constraints and/or preferences of speakers concerning their use. The typology of TR focuses on four cross-linguistically common meanings/functions, identified as the intensive, the contrastive, the distributive and the iterative. Part of the analysis of these functional types is based on data that come from two experiments with native speakers; the one confirms or refines earlier assumptions on to the relation of the above meanings/functions with word classes and semantic features of words; the other clarifies the idea of prosodic unity in TR and sheds light into various aspects of the relation of intonation with the interpretation of TR constructions. Also, the formal and lexical constraints on the use of TR are discussed with respect to the status of TR (particularly, the "grammatical"- "lexical" opposition). In general, TR seems to be a borderline case between grammar and the lexicon and a heterogeneous category, in that it involves grammatical, pragmatic and lexical construction types. However, the

constructions in question meet highly specific criteria for their status as TR types and the process is productive and considerably regularized (rule-governed) in MG. In this sense, TR should not be merely taken as a strategy for "emphasis", but should be systematically represented in grammar textbooks.
