—Michelle Alexander, New York Times columnist and author of *The New Jim Crow* In the eloquent tradition of Bryan Stevenson's *Just Mercy*, an award-winning leader in the movement to end mass incarceration takes on the vexing problem of violent crime Although over half the people incarcerated in America today have committed violent offenses, the focus of reformers has been almost entirely on nonviolent and drug offenses. Danielle Sered's brilliant and groundbreaking *Until We Reckon* steers directly and unapologetically

into the question of violence, offering approaches that will help end mass incarceration and increase safety. Widely recognized as one of the leading proponents of a restorative approach to violent crime, Sered asks us to reconsider the purposes of incarceration and argues persuasively that the needs of survivors of violent crime are better met by asking people who commit violence to accept responsibility for their actions and make amends in ways that are meaningful to those they have hurt—none of which happens in the context of a criminal trial or a prison sentence. Sered launched and directs Common Justice, one of the few organizations offering alternatives to incarceration for people who commit serious violent crime and which has produced immensely promising results. Critically, Sered argues that the reckoning owed is not only on the part of those who have committed violence, but also by our nation's overreliance on incarceration to produce safety—at great cost to communities, survivors, racial equity, and the very fabric of our democracy. Aqeedah Tahawiyyah, though small in size, is a basic text for all times, listing what a Muslim must know and believe and inwardly comprehend. There is consensus among the Companions, the Successors and all the leading Islamic authorities such as the four Imams and their authoritative followers on the doctrines enumerated in this work, which are entirely derived from the undisputed primary sources of Religion, the Holy Qur'an and the confirmed Hadith. Being a text on Islamic doctrine, this work sums up the arguments set forth in those two sources to define sound belief, and likewise, the arguments advanced in refuting the views of sects that have deviated from the Sunna. As regards the sects mentioned in this work, familiarity with Islamic history up to the time of Imam Tahawi would be quite helpful. More or less veiled references to sects such as the Mu'tazila, the Jahmiyya, the Karramiyya, the Qadariyya, and the Jabariyya are found in the

work. It also contains allusions to other views considered unorthodox and deviant from the way of Ahl al-Sunna. There is an explicit reference in the work to the controversy on the creation of the Qu'ran in the times of al-Ma'mun and others. While the permanent relevance of the statements of belief in the `Aqida are obvious, the historical weight and point of certain of these statements can be properly appreciated only if the work is used as a text for study under the guidance of some learned person able to elucidate its arguments fully, with reference to the intellectual and historical background of the sects refuted in the work. Since the present book is intended exactly as one such aid towards understanding the details of Islamic belief with clarity, it is hoped that the quotation of the entire text of Tahawi's "Doctrine," which we consider as the doctrine of Ahl al-Sunna wa al-Jama`a, will be of benefit to the reader. And may Allah grant us a true understanding of faith and count us among those described by the Prophet as the Saved Group. Contains cases in the English language which are drawn from the common law jurisdictions while the cases in the French language are drawn from the civil law system. In both cases the reproduction of the cases is preceded by an overview and analysis of the cases.
