The ideal roadmap for defense lawyers and prosecutors, John M. Castellano has built on the fine works of the original authors of this book, James A. Adams and Daniel D. Blinka who appreciate the succinct analysis necessary to canvass the often tangled landscape of Fourth Amendment law. Their pragmatic approach has created a balanced, sound and comprehensive one-volume survey of arrest, search and seizure issues. The Third edition now features all decisions by the Supreme Court Fourth Amendment cases through June 2015 as well as significant and helpful circuit court decisions on a variety of topics. It includes a number of other new, expanded, or refined sections as well which include application for orders to intercept; bodily intrusions, emergency searches, and workplace searches. Yet many times there is no choice except to invade the privacy of an individual. A murderer has to be jailed. If there are good reasons for believing important evidence of guilt is in his house, a suspect's right of privacy may have to bow to the People's need to search. The rules we will examine attempt to trace when privacy must give way to the government's need to intrude, and also when the rights of privacy are permitted to stand. This process basically involves weighing the police officer's reasons and balancing them against the degree of intrusion. When the officer has enough reason to arrest a person or to make a search, we say he has probable cause. We must keep in mind that it is impossible to determine probable cause by some scientific test. Rather, evidence must be presented in a court where a judge evaluates the case and makes a ruling. Judges have varying views and attitudes and it is difficult to predict whether it will be valid when presented to a judge. The lessons for a police officer are apparent. He must be careful about evaluating his probable cause. He can best achieve a favorable judicial ruling on the validity of his arrest or search by familiarizing himself with the rules so as to build the strongest possible case. A riveting lineup of the world's most famous and infamous arrests, from Lizzie Borden (double murder) to Lindsay Lohan (DUI) to Roman Polanski (unlawful sexual intercourse) Although the headlines fade, the humiliation, vulnerability, and sometimes chilling smugness of the alleged criminal in the mug shot stands the test of time. Covering 150 years of run-ins with the law, Busted reveals more than 500 of the most famous, disturbing, and just plain pathetic mug shots ever recorded. Subjects from all walks of life face front and turn to the left in this enthralling slice of social history. Among the alleged perpetrators are James Brown (carrying an unlicensed weapon and assaulting a police officer), Lenny Bruce (obscenity), Bill Gates (running a red light, driving without a license), Al Capone (tax evasion), Jeffrey Dahmer (rape, torture, murder, cannibalism), Eminem (assault), Mick Jagger (drugs charges), Malcolm X (burglary), Al Pacino (carrying a concealed weapon), Charles Barkley (disorderly conduct), Frank Sinatra (morals charges), Bernie Madoff (securities fraud, investment adviser fraud, mail fraud, wire fraud, money laundering, perjury, making false filings with the SEC, theft from an employee benefit plan), Bugsy Siegel (gambling and bootlegging), Tupac Shakur (sexual assault), Roger Clinton (drug dealing), and hundreds more. The date of the arrest is provided, along with the fascinating, shocking, and sometimes ludicrous stories of the circumstance that led to the arrest, as well as occasional details of the trial and punishment (or merely the humble apology) that followed. Impossible to turn away from, Busted is the perfect coffee-table or gift book for our celebrity-obsessed society. Undertakes a comparative examination of the detention and arrest powers of merchants, peace officers and ordinary citizens. 2014 Reissue with new table of statutes. This book covers the legal rules that govern an officer's authority to enforce laws and to investigate criminal offenses. It also covers the basic rules of evidence in criminal cases. Supplementary material is placed in footnotes at the bottom of the text, and relevant case summary sections are located at the end of each chapter (for chapters 2-5). Footnotes to the text and case summary sections include appellate cases and statutory references to assist in researching particular issues. The book is current with case law through June 2016 and statutory law through the 2016 legislative session. It contains a subject index and a case index. The fifth edition replaces all prior editions and supplements. A free download of the table of contents and preface are available (<https://www.sog.unc.edu/publications/books/arrest-search-and-investigation-north-carolina/details>). This insightful volume examines key research questions concerning police decision to arrest as well as police-led diversion. The authors critically

evaluate the tentative answers that empirical evidence provides to those questions, and suggest areas for future inquiry. Nearly seven decades of empirical study have provided extensive knowledge regarding police use of arrest. However, this research highlights important gaps in our understanding of factors that shape police decision-making and what is required to alter current police practice. Reviewing this research base, this brief takes stock of what is known empirically about all aspects related to the use of arrests, providing important insights on the knowledge needed to make evidence-based policy decisions moving forward. With the potential to better impact policy and programs for alternatives to arrest, this brief will appeal to researchers and practitioners in evidence-based policing and police decision-making, as well as those interested in alternatives to arrest and related fields such as public policy. • The statutes and rules governing practice before federal magistrates The ideal roadmap for defense lawyers and prosecutors, written by former prosecutors, Professors Adams and Blinka who appreciate the succinct analysis necessary to canvass the often tangled landscape of Fourth Amendment law.
